## RESUME OBJECTIVE

---

After three years as a Tech Lead at One2Team, I would like to take new challenges. I am truly practicing agile software development to deliver the most value. In this way of thinking, fullstack is important to deliver features from the database to the frontend, through the backend. I do java on backend, react on frontend

## SKILLS

---

Agile Tests Java Javascript React Angularjs Jersey Guice Git Jest Webpack Junit  
Conception Simple Design Continuous Deployment ...

## EXPERIENCE

---

### **One2Team – 3 years**

#### **TECH LEAD**

*One2Team / May 2016 - Present · 3 years 3 months*

- Frontend :Integrate Redux in the Angularjs frontend application
- Frontend :Progressive migration in ReactJS
- Backend : Java Jersey web service development and re-design on top of the product architecture
- Developing features with the team in the one-week sprint SCRUM environment
- Quality barrier through unit tests and code reviews

### **Valtech – 8 years**

#### **TECH LEAD**

*Argus de la Presse / Dec 2014 - Apr 2016 · 1 yr 5 months*

- Tech lead of an agile team to produce the customer facing web application.
- A lots of AngularJS frontend, a little of Java backend (spring, jersey, postgresql).
- My top #2 experience : loved to grow this team and successfully delivering the application in production.

#### **AGILE TECHNICAL COACH**

*Societe Generale Corporate and Investment Banking with Valtech / Oct 2013 - Nov 2014 · 1 yr 2 months*

- Using Lean tools to assess projects, the goal was to help people reaching the last step to the full agile implementation : the continuous delivery of value to users.
- Tech' skills are mandatory because in the end, we are building software.
- We were not just refactoring the process and the interactions between stakeholders.

#### **AGILE DEVELOPPER**

*Speedy with Valtech / Apr 2013 - Oct 2013 · 7 months*

- Web developer on [www.speedyfleet.fr](http://www.speedyfleet.fr) extranet
- The agile way : fixed budget style, maximum value

- Fully tested, google's Angular and java's Jersey

## **AGILE DEVELOPPER**

*Mappy with Valtech / Jan 2012 - Mar 2013 · 1 yr 3 months*

- Integrate www.urbandive.com java backend to www.mappy.com
- Implementation of missing urbandive features and performance focus to launch on mappy.com
- Tech lead since August.

## **AGILE DEVELOPPER**

*PagesJaunes at Urbandive with Valtech / Sep 2010 - Jan 2012 · 1 yr 5 months*

- <http://www.urbandive.com>
- Java backend for point of interests and search.
- Scalability, nosql, search using Jersey, Tomcat, Jetty, Jenkins, MongoDB, Solr
- My top #1 experience

## **AGILE DEVELOPPER**

*Louis Vuitton with Valtech / Jul 2010 - Sep 2010 · 3 months*

- Google Maps integration in an existing store locator for managers trip planning. Front-end development and Indian team that developed back-end coordination using Scrum.
- Coordinate experts (IBM, Talend, applicative developpers in India) for a Proof Of Concept to bind WebSphere services to the AS-400 back-end. Implement load tests using JMeter.

## **DEVELOPPER**

*Thales EPM with Valtech / Feb 2008 - Jul 2010 · 2 years 6 months*

- Eclipse RCP developer. Dive in Eclipse OSGI world... Learned about good design on strong client. The tool is a portal for the group's system engineers to help them view and automate their project's process.
- Pushed agile organizational practices such as iterations and product backlog there.

### **In Valtech :**

- Teaching Lean Software Development and TDD for Valtech Training.
- Involved in Valtech : [blog.valtech.fr](http://blog.valtech.fr) maintainer, technical committee, internal tech courses

## **Artal – 2 years**

### **DEVELOPPER**

*IGC with Artal / Mar 2007 - Feb 2008 · 1 year*

- Java reports with Apache POI, iText, FOP

### **DEVELOPPER**

*Airbus with Artal / Feb 2006 - Feb 2007 · 1 year 1 month / Toulouse*

- JavaEE (Struts2, EJB2) application evolutions
- Web-app to manage airplane test campaign wind-tunnel data

## **Acc&s – 1 year**

### **DEVELOPPER**

*Acc&s / Feb 2004 - Sep 2004 · 8 month / Orléans*

- Internship on an application working with the Caché object database
- PDF exports with Apache XML-FO

## **TRAINER**

---

*Valtech Training / 2009 - 2014 · 5 years*

- Lean Software Development
- Test Driven Development
- SCRUM

## EDUCATION

---

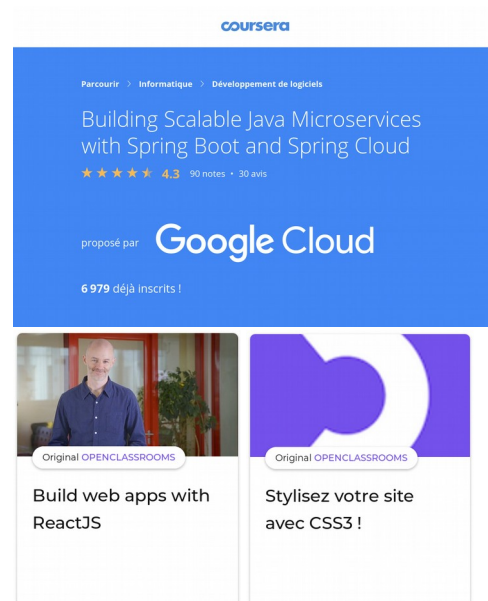

### MASTER - Computer Science

Université Paul Sabatier Toulouse III  
2004 - 2005

### MAITRISE - Computer Science

Université d'Orléans  
2000 - 2004

### Certifications / Online trainings

The image shows a screenshot of the Coursera website. At the top, the Coursera logo is visible. Below it, there is a navigation bar with the text 'Parcourir > Informatique > Développement de logiciels'. The main content area features a large blue banner for the course 'Building Scalable Java Microservices with Spring Boot and Spring Cloud'. The banner includes a star rating of 4.3 and '90 notes • 30 avis'. Below the banner, it says 'proposé par Google Cloud' and '6 979 déjà inscrits !'. Below the banner, there are two smaller course cards. The first card is titled 'Build web apps with ReactJS' and features a video thumbnail of a man speaking. The second card is titled 'Stylisez votre site avec CSS3 !' and features a purple and white graphic.

## ACTIVITIES

---

### Co-organizer - Agile France Conference

Paris - Jul 2010 - Jun 2012

#### Speaker

- **Scaling Web Application : From Angular JS to Modular ReactJS**  
*Ecole 42 - 05/02/2019 - [voir la vidéo](#)*
- **CQRS + EventSourcing : on en entend parler, nous le codons en live**  
*Codeurs en Seine - 26/11/2015*
- **TDD is not Dead**  
*Codeurs en Seine - 27/11/2014 - [voir la vidéo](#)*
- **Katastophic**  
*Ecole 42 - 11/06/2014 - [voir la vidéo](#)*
- **Mise en production continue, 1 an après**  
*Devoxx France - 18/04/2014 - [voir la vidéo](#)*
- **Merci, j'ai vu la lumière du TDD**  
*Agile France - 23/05/2013*
- **Code Story**  
*Devoxx France - 2012 - [voir la vidéo](#)*
- **LEAN Software Development et pratiques agiles**  
*XP Day France - 26/05/2009 - [voir les slides](#)*
